Executive Summary & Creative Context

RIO SPIN & WIN 2026 is an on-ground consumer spot-selling activation platform for **Good Drop Wine Cellars** deployed at retail wine shops. When a consumer purchases a Rio beverage, the promoter records the sale on an Android mobile phone and hands it to the customer. The customer spins the vibrant prize wheel to win an instant giveaway.

Brand Personality: Energetic, youthful, colourful, bold, social, and party-oriented. Design language is built with neon highlights against dark nightlife navy backgrounds, crisp celebratory animations, and instant consumer engagement.

1. Brand Design System & Color Palette

All creative assets must strictly align with the app's established design tokens defined in the codebase (base.css):

 Rio Neon Pink #FF2E63	 Rio Bright Yellow #FFD23F	 Electric Purple #7B2FF7	 Rio Cyan / Aqua #08D9D6
 Vivid Orange #FF8A00	 Party Green #2BD66B	 Night Sky Base #1B0B3A	 Deep Violet Ray #2A1257

App Typography Reference:

- Display / Game Typography:** Bungee (Google Fonts) — bold playful all-caps typography used for titles, wheel labels, prize numbers, and primary CTA buttons.
- UI & Body Typography:** Inter (Google Fonts) — clean legible geometric sans-serif for forms, metadata, and management dashboards.

2. Brand Identity & Application Logos

ASSET NAME	APP LOCATION	RENDERED CSS SIZE	RECOMMENDED DESIGN SIZE
RIO SPIN & WIN Horizontal Logo	Top bar (PromoterApp.jsx) & Admin sidebar (StaffApp.jsx)	180 × 36 px (mobile) 200 × 45 px (desktop)	800 × 180 px (or SVG vector)
RIO SPIN & WIN Stacked Lockup	Login screen hero banner (Login.jsx) & splash screen	240 × 120 px	960 × 480 px (or SVG vector)
Good Drop Wine Cellars Corporate Logo	Login subheader (Login.jsx) & console credits	180 × 36 px	720 × 144 px (or SVG vector)
RIO Core Emblem / Center Disc Seal	Wheel center hub (Wheel.jsx) & circular brand stamps	92 × 92 px (hub)	512 × 512 px (1:1 circle, PNG/SVG)

3. Prize Creative Packshots (Uploaded via Admin to Supabase)

Each prize image is uploaded via the Admin Portal into the Supabase prize-images storage bucket. These images are displayed on the **Winner Celebration Screen** (WinScreen.jsx in .win-prize) inside a circular wobbling badge, and as thumbnails in the Admin Masters table (36 x 36 px) and modal forms (96 x 96 px).

Artwork Framing Instruction: The winner screen frames the image in a circle (width: min(52vw, 230px); border-radius: 50%) with object-fit: contain. Please ensure the prize artwork is perfectly centered on a transparent background with approximately **15% margin / padding** inside the canvas so parts of the prize are not clipped by the circular border.

#	PRIZE NAME	TIER	QTY / 200	CREATIVE DESCRIPTION	DESIGN RESOLUTION & FORMAT
1	₹5 Snack	STANDARD	152	High-energy snack packshot (wafers, munchies, chips packet).	600 x 600 px 1:1 Square, PNG Transparent
2	₹10 Snack	STANDARD	34	Larger branded snack packshot / popcorn pouch.	600 x 600 px 1:1 Square, PNG Transparent
3	Rio Dare Card Game	MID	10	Rio-branded party dare card game tuck box / card deck.	600 x 600 px 1:1 Square, PNG Transparent
4	Rio Sunglasses	HIGH	3	Rio-branded stylish party shades / sunglasses with Rio logo.	600 x 600 px 1:1 Square, PNG Transparent
5	Rio Mini Bluetooth Speaker	JACKPOT	1	Major jackpot giveaway. Premium Rio-branded wireless cylinder speaker.	600 x 600 px 1:1 Square, PNG Transparent

4. Rio Beverage SKU Packshots (Sale Recording Screen)

Promoters select the purchased SKU during sale entry (SaleFlow.jsx, 2-column grid .sku-grid). Supplying clean, photographic transparent cut-outs of Rio cans and bottles replaces the generic canned emoji and speeds up promoter usability during fast retail spot-selling.

#	SKU NAME	PACKAGE TYPE	VOLUME	RECOMMENDED DESIGN SIZE
1	Rio Gold Tropical Can	Slim Aluminum Can	500 ml	400 x 600 px (PNG Transparent)
2	Rio Strong Red Can	Slim Aluminum Can	500 ml	400 x 600 px (PNG Transparent)
3	Rio Strong Gold Can	Slim Aluminum Can	500 ml	400 x 600 px (PNG Transparent)
4	Rio Gold Tropical Bottle	Glass Wine Bottle	750 ml	400 x 600 px (PNG Transparent)

Packshot Production Guidelines:

- Clean alpha channel (no white fringing, soft realistic drop shadow or no shadow).
- Consistent lighting angle across all cans and bottles (top-left key light recommended).
- Vertical alignment centered within the canvas with ~10% margin top and bottom.

5. Spinning Wheel Architecture & Component Graphics

The prize wheel (Wheel1.jsx) is an interactive SVG component with coordinate viewBox -215 -225 430 440 (aspect-ratio 430:440). On mobile screens, it renders up to 520px width.

Wheel Component	Code Dimension	Recommended Design Size	Technical Specifications
Wheel Face Disc	Radius 180 (Diameter 360 units)	1200 x 1200 px	1:1 Circular Disc. 8 equal segments (45° each).
Wheel Center Hub	Radius 46 (Diameter 92 units)	400 x 400 px	1:1 Circular cap with Rio logo & gold border (#FFD23F).
Pointer / Ticker Peg	40 x 44 units (top center)	160 x 180 px	Top indicator arrow pointing down into wheel at 12 o'clock.
Outer Chasing Lights Rim	Radius 208 (Diameter 416 units)	1200 x 1200 px	Bezel ring with 24 flashing light bulbs. Donut shape.

Wheel Segments Breakdown (Clockwise from Top):
